

A product designed for both conventional and analogue addressable fire alarm systems. Available as a visual indicator and audible/visual indicator, the Identifire Remote Lamp Unit can be easily retrofitted to existing systems or incorporated as part of a new installation.

As with the wider Identifire range, the product is designed to fit any recessed single gang box, giving a flush finish or surface mounted using the Identifire surface box.

In common with all other Identifire products, our Remote Lamp Unit can be customised with your choice of logo and text in any language*

Specification
