

# CLAMBELL® FIRE ALARM BELLS

Manufactured by Vimpex in the UK, the ClamBell® EN54-3 approved fire bell incorporates traditional and innovative design.

The hinged design of ClamBell® means installers benefit from reduced installation time. Once fitted to the wall and wired to the circuit, ClamBell® clicks shut.

Low power consumption and good sonorous tone result from use of an aluminium gong which also significantly reduces weight.

Three mounting versions are available - shallow base, deep base and purpose designed weatherproof option.

## Specification

### Rated Voltage (dc)

24 V	20.4 - 27.6
12 V	9.6 - 13.2

### Nominal Current (mA)

24 V	12
12 V	12

### Sound Output dB(A) @1 m (max)

96

### Temperature Range (C°)

Shallow Base	-10 to +50
Deep Base	-25 to +70
Weatherproof Base	-25 to +70

### Humidity Range (%)

&lt;96%

### Weight (g)

24 V &amp; 12 V

Shallow Base	378 g
Deep Base	497 g
Weatherproof Base	522 g

### Gong Colour

Red/White/Grey

### Gong Construction

Aluminium

### IP Rating

Shallow Base	IP21C
Deep Base	IP33C
Weatherproof Base	IP56 CAT 2**

\*Available on request

\*\*Weatherproofing not approved by LPCB, tested and approved by Intertek

# CLAMBELL®

## Features

- / Permanently fitted gong
- / Specifically designed weatherproof back box
- / Mounting options for European, Asian and US style installations
- / Slick and modern looking
- / Fully customised pad printed branding\*
- / Strobello option which integrates ClamBell® and bright VID for unique combined unit available
